## Courier

W.T. SeaAir operates a global air courier service with specialist capabilities.

We use a strategic basket of air cargo carriers complemented by in-house operations and industry neutral wholesale providers to deliver world wide services that meet specific business requirements.

We are also fully equipped to handle sensitive cargoes and operate outside normal time schedules and parameters to meet time critical consignments.

W.T. SeaAir was the first company to operate scheduled on-board carrier services to India.

## Products and Services

As a founder member of the Association of International Courier and Express Services, our air courier product is a dedicated component of W.T. SeaAir's blended supply chain solutions platform but is also available as a stand alone service.

Alongside standard courier consignments, we are uniquely placed to meet vital shipment requirements from bank holiday collections and deliveries, to hazardous goods handling and cross trade movements.

Full online tracking capabilities, e-booking facilities and a courier broker service are among the many useful services we provide.

Dependent upon size and weight of shipment combined with product description and destination, clients can choose from:

### Standard Express

Next day business delivery across most of mainland Europe and North America. Two to four working days for all other destinations.

### Deferred Services

Cost-effective road and air transit for less time critical orders.

### Next Flight Out/Out of Box Service

For extraordinary delivery requirements where a designed solution is necessary,

we offer:

- Same day delivery within Europe and North America
- Next day/morning timed deliveries across Europe and North America
- Out of hours, weekend and bank holiday collections and deliveries
- Overseas collection for return by deadline
- Hazardous goods through to door
- Third party collections and deliveries
- Cross trade movements
- Special drives by dedicated vehicles
- Hand carry by dedicated on-board couriers

### Visibility

We create bespoke supply chain management applications from complex purchase order management systems to simple track and trace services so that your courier data can be configured to any reporting requirement.

### Duty Management Services

W.T. SeaAir provides a full customs bureau management service from simple home use entries to migrating type E bonded warehousing; by optimising duty and VAT payments, cash flow benefits and direct cost savings are realised.

### Additional Services

- E-booking facility to create orders online
- Pre-printed waybills
- Full online tracking capabilities
- Free courier pouches for packing
