

W.T.  
SeaAir

## Duty Management Services

W.T. SeaAir provides a full customs bureau management facility to optimise duty and VAT payments.

Using state-of-the-art software and a team of experienced personnel, we can handle all elements of customs procedures delivering financial cost savings and cash flow benefits.

Available as a stand alone product or as an integral part of our Supply Chain Management Services, our solutions are tailored to meet the special requirements of managing a bonded warehouse.

Our menu of services has all the right ingredients from CFSP to Home Use and beyond via type e bonded warehousing. Our scalable product delivers real financial benefits across the whole Duty Management spectrum.

W.T. SeaAir provides a full customs bureau management facility to optimise duty and VAT payments.

# Duty Management Services

## Products and Services

Operating as a centralised, HM Revenue & Customs-linked, third party operation, we can process duty and VAT costs at point of despatch.

Based at our warehousing facility in Hucknall, Nottingham, our dedicated team handle more than 1.2 million warehouse removals and 20,000 entries a year.

They are fully adept in the complexities of duty management procedures from home use entries through to type E compliant bonded warehousing.

Our management team operates at the forefront of all developments in HM Revenue & Customs and EU controls providing clients with an extensive up-to-date knowledge base as legislation changes.

## Building a Solution

### Duty Calculator

W.T. SeaAir can formulate the fiscal benefits of migrating towards a bonded warehouse with our user-friendly calculator.

### Implementation

We drive all aspects of the implementation process to ensure a stable state is achieved from the 'go live' date, backed up by a full standard operating procedure.

### Reporting

We create simple operational structures to maintain clear and precise communication lines, tailored reporting of VAT and duty returns and a full support programme for auditing purposes.

### Benefit

There is no additional overhead required as technology drives the process.

### IT Systems Interface

W.T. SeaAir uses specialist HM Revenue and Customs' compliant software to provide a full menu of services.

The Impatex system allows entries to be input from anywhere in the world and connects the arrival ports to our bureau so procedures can be handled in real time.

Working from the UK or abroad, we can monitor and manage client data to ensure extensive operational control at all times.

### Additional Services

- Customs Freight Simplified Procedures
- Full Bonded Warehousing
- OPR (Outward Processing Relief)
- IPR (Inward Processing Relief)
- OPT (Outward Processing Trade)
- Exports
