

W.T.
SeaAir

Logistics

W.T. SeaAir's global infrastructure of processing facilities delivers key services at origin and in the UK.

State-of-the-art facilities for garment processing in major manufacturing hubs including Sri Lanka and China enable us to create dynamic logistics solutions for the retail market.

In an environment with complex, volatile and seasonal markets driven by consumer demand and taste, our supply chain solutions have to be an exacting science delivering operational excellence.

Cost-effective origin pre-retailing activity, garment vacuum packing and a full destination processing menu enables W.T. SeaAir to design a true, end-to-end solution that delivers sustainable value.

Logistics

Products and Services

W.T. SeaAir has devised innovative ways to deliver a lean supply chain by reducing additional processing activity and maximising cost benefits.

Global Park, Colombo, Sri Lanka

Global Park is a purpose-built bonded warehouse offering key intermodal logistics services. Jointly owned with GTL, it is located on a 19-acre site with a range of services and capabilities ideally suited for the high street retailer.

Hucknall, Nottingham

Our Hucknall freehold property is fully equipped with a hanging rail system, nine chamber VEIT tunnel, hand presses plus individual and transit set bagging machines.

Crayford, Kent

Our Crayford facility has a high volume processing capacity and our vacuum flat-packing technology for garment exports to overseas franchises.

W.T. SeaAir's global processing menu is extensive and is EDI compliant for purchase order transmission and stock visibility.

Facilities include:

- Vacuum Packing
- Steam Tunnelling
- Bagging Machines
- Individually Handbag
- Sealing Machines
- Robust AQL/QC Procedure
- Remedial Work
- Bar Coding and Ticketing
- Wash Testing
- Label Size Sticker on Hanger
- Alpha Sacking
- Stock Reporting

- Systems Integration
- Label Cut Out Service
- Pressing/Hand Irons
- Checks Versus Sealed Samples
- Spot Cleaning

Reverse Logistics

We offer a full reverse logistics service to help protect clients from detrimental profit loss from faulty, damaged or quality affected garments.

- Stock Check Reporting and coding by style, colour and SKU
- Garments reworked in line with due date and Purchase Order request
- Screening and inspection programme
- Full repair services
- Garments re-tunnelled, pressed and bagged
- Product status is recorded throughout the reverse cycle
- Vendor return initiatives

E.R.T.S.

Our Crayford processing centre and Heathrow warehouse are both approved by Revenue and Customs to operate under E.R.T.S. conditions.

Duty Management Services

W.T. SeaAir provides a full customs bureau management service from simple home use entries to migrating type E bonded warehousing; by optimising duty and VAT payments, cash flow benefits and direct cost savings are realised.

Visibility

We create bespoke supply chain management applications from complex purchase order management systems to simple track and trace services so that your logistics data can be configured to
